**Special Business Opportunity for Idaho Nuclear Suppliers**  
**Idaho Suppliers Showcase at the Nuclear Energy  
Advanced Manufacturing & Supply Chain Summit & Showcase**

*Shilo Inn Conference Center  
Idaho Falls  
October 3-4, 2017*

The October 3-4 Advanced Manufacturing & Supply Chain Innovation in Nuclear Energy Leadership Summit sponsored by the U.S. Nuclear Infrastructure Council (USNIC) in conjunction with the Idaho National Laboratory has been expanded to include a special Idaho Showcase for Idaho-based nuclear energy suppliers on a space-available basis.

The Advanced Manufacturing & Supply Chain Summit & Showcase is an inaugural annual meeting of leading U.S. nuclear energy suppliers and manufacturers including the new Center for Advanced Nuclear Manufacturing (CANM) and NuScale Power. Perspectives will be provided from the U.S. Department of Energy's Office of Nuclear Energy, Idaho National Laboratory and Argonne National Laboratories with special focuses on supplier and technology developer opportunities and challenges as well as cutting edge manufacturing and supply chain issues. National nuclear energy pundit and commentator Llewellyn King will offer a keynote on "Innovate and Prosper." Showcase participants include INL, CENTRUS Energy, X-Energy, Holtec International, CANM, Canadian Nuclear Laboratories and USNIC.

The USNIC has established a special Showcase rate for qualified Idaho suppliers, which includes a 10X10 tabletop showcase and registration.

Immediately following the USNIC Advanced Manufacturing and Supply Chain Innovation Leadership Summit & Showcase, the U.S. Department of Energy's Office of Nuclear Energy will hold its annual review of the current projects that are part of its Advanced Methods for Manufacturing program. The DOE workshop will run from Wednesday afternoon, October 4, into the afternoon of Thursday, October 5. It also is being held at the Shilo Inn Conference Center, the same venue as the USNIC Summit. According to the DOE, during the DOE AMM workshop, more than a dozen principal investigators will review the status of their research and discuss the relevance of their findings to advanced manufacturing.

For details on the Idaho Suppliers Showcase at the Nuclear Energy Advanced Manufacturing & Supply Chain Summit & Showcase (October 3-4) please contact Mr. Caleb Ward at (202) 332-8845 or [caleb.ward@usnic.org](mailto:caleb.ward@usnic.org).

The full agenda and registration for the USNIC Advanced Manufacturing & Supply Chain Innovation Leadership Summit & Showcase, which will be held October 3-4, are available at: <http://events.r20.constantcontact.com/register/event?oeidk=a07eee14v7dc2f9dd6c&llr=b95dyciab&showPage=true>

The full agenda and registration for the DOE-NE Advanced Methods for Manufacturing Workshop are available at: <https://www.eventbrite.com/e/doi-ne-advanced-methods-in-manufacturing-annual-program-review-registration-37755490689>

### **About USNIC**

The United States Nuclear Infrastructure Council (USNIC) is the leading U.S. business consortium advocate for nuclear energy and promotion of the American supply chain globally. Composed of nearly 100 companies, USNIC represents the "Who's Who" of the nuclear supply chain community, including key utility movers, technology developers, construction engineers, manufacturers and service providers. USNIC encompasses seven working groups and select task forces. For more information visit [www.usnic.org](http://www.usnic.org).
