

## **USNIC Names Three New Senior Fellows: Supply Chain, D&D/Transportation, Fusion/Medical Isotopes**

Please join us in welcoming the addition of three new USNIC Senior Fellows who will be expanding the Council's forte, expertise and initiatives in several key arenas:

### **Mr. Parry Walborn**

#### **Senior Fellow for Advanced Manufacturing & Supply Chain Working Group**

Parry.walborn@usnic.org

Parry is a former Vice President with Allegheny Technologies Incorporated (ATI) where he led commercial operations and directed market sector teams in the energy arena including nuclear. He was the founding USNIC Manufacturing & Supply Chain Working Group Chairman and led two national forums on nuclear energy supply chain opportunities and readiness. He is a former member of the U.S. Department of Commerce's Civil Nuclear Trade Advisory Committee. Parry's comprehensive experience includes the global supply chain and distribution networks; manufacturing operations; and finance. Parry is on the coordinating group for the USNIC Ready4Nuclear Western U.S. & Canada Workshop on May 15-16 at INL where he will be moderating development of regional supply chains.

### **Dr. Laurie Ford**

#### **Senior Fellow for Transportation & D&D Task Forces**

Laurie.Ford@usnic.org

Laurie has a PhD in Operation Research engineering and was a management consultant with U.S. businesses, government agencies, and associations. She has worked on organization change and management communication projects with clients including: The U.S. Department of Energy's Military Applications section; Martin Marietta Corporation; NASA's Goddard Space Flight Center; and the U.S. Naval Air Warfare Center's Weapons Division. She has also supported conference and task force activities including the Waste Management Symposia, as author, presenter, and session organizer for personnel working in U.S. and international nuclear facilities and regulatory agencies; and performing survey analysis and reporting for the U.S. Energy Facility Contractors Operating Group.

### **Dr. Junaid Razvi**

#### **Senior Fellow for Fusion & Medical Isotopes**

Junaid.razvi@usnic.org

Junaid has 40 years of experience in nuclear technology across the science, policy, regulatory and economic spectrum of the industry, having held leadership positions in program management, business and proposal development on national and international

programs. His experience most recently at General Atomics spanned the design, licensing, construction, operation and utilization of nuclear reactors, nuclear fuel facilities and related systems. Representative projects included Advanced Nuclear Reactors, Research, Test and Training of Non-Power Reactors; and Nuclear fuel Manufacturing. Junaid was a founding member of the USNIC and has served as a member of the Industry Advisory Committee of UC Irvine College of Engineering, ANS Standards Committee and the Board of Directors of TRIGA International. Junaid is a member of the organizing committee for the 2019 Advanced Reactor Summit VI & Showcase.
