

NNC 2026

NEW NUCLEAR CAPITAL

NOVEMBER 10, 2026 | NEW YORK CITY & VIRTUAL

SPONSORSHIP OPPORTUNITIES

Overview:

New Nuclear Capital (NNC 2026) is the annual investment forum at the intersection of finance and advanced nuclear. Convened by the U.S. Nuclear Industry Council (USNIC) in New York City on November 10, 2026, NNC 2026 brings investors and lenders together with utilities, data-center leaders, industrial offtakers, reactor developers, technology companies, EPCs, and government leaders to understand why nuclear is attracting capital now, where the most compelling investment opportunities are emerging across the nuclear value chain, and who investors need to know to evaluate and execute those opportunities. Through focused keynotes, candid discussions, and targeted networking, NNC 2026 explores the market demand, financing structures, risks, policy drivers, and partnerships shaping the next generation of nuclear investment. It's where investors come to understand why nuclear is investable now—and what to back next.

Sponsorships are limited—secure your package now!
